115. (a) A person other than a licensed transporter shall not transport medical cannabis or medical cannabis products from one facility issued a state license to another, unless otherwise specified in this chapter.

(b) All licensees holding cultivation or manufacturing licenses shall send all medical cannabis and medical cannabis products cultivated or manufactured to a Type 11 licensee for quality assurance and inspection by the Type 11 licensee and for a batch testing by a Type 8 licensee prior to distribution to a dispensary. Those licensees holding a Type 10A license in addition to a cultivation license or a manufacturing license shall send all medical cannabis and medical cannabis products to a Type 11 licensee for presale inspection and for a batch testing by a Type 8 licensee prior to dispensing any product. The licensing authority shall fine a licensee who violates this subdivision in an amount determined by the licensing authority to be reasonable.
(c) Upon receipt of medical cannabis or medical cannabis products by a holder of a cultivation or manufacturing license, the Type 11 licensee shall first inspect the product to ensure the identity and quantity of the product and then ensure a random sample of the medical cannabis or medical cannabis product is tested by a Type 8 licensee prior to distributing the batch of medical cannabis or medical cannabis products.

(2) Upon issuance of a certificate of analysis by the Type 8 licensee that the product is fit for manufacturing or retail, all medical cannabis and medical cannabis products shall undergo a quality assurance review by the Type 11 licensee prior to distribution to ensure the quantity and content of the medical cannabis or medical cannabis product, and for tracking and taxation purposes by the state. 143. (a) By January 1, 2017, the Division of Labor Standards Enforcement shall develop a certification program for cannabis employees. Commencing January 1, 2019, except as provided in subdivision (c), certification shall be required of all persons who perform work as cannabis employees.

(b) Individuals desiring to be certified shall submit an application for certification and examination.
(c) (1) Certification is not required for registered apprentices working as cannabis employees as part of a state-approved apprenticeship program. **Article 12. Taxation**

146. (a) (1) A county may impose a tax on the privilege of cultivating, dispensing, producing, processing, preparing, storing, providing, donating, selling, or distributing medical cannabis or medical cannabis products by a licensee operating pursuant to Chapter 3.5 (commencing with Section 100) of Division 8 of the Business and Professions Code.
(2) The board of supervisors shall specify in the ordinance proposing the tax the activities subject to the tax, the applicable rate or rates, the method of apportionment, if necessary, and the manner of collection of the tax. The board of supervisors shall specify whether the tax applies throughout the entire county or within the unincorporated area of the county.

(4) The tax authorized by this section may be imposed upon any or all of the activities set forth in paragraph (1), as specified in the ordinance, regardless of whether the activity is undertaken individually, collectively, or cooperatively, and regardless of whether the activity is for compensation or gratuitous, as determined by the board of supervisors.

This section shall not be construed as a limitation upon the taxing authority of a county as provided by law.

(e) This section shall not be construed to authorize a county to impose a sales or use tax in addition to the sales and use tax imposed under an ordinance conforming to the provisions of Sections 7202 and 7203 of the Revenue and Taxation Code.

(a) Each licensing authority shall charge each licensee a licensure and renewal fee, as applicable. The licensure and renewal fee shall be calculated to cover the costs of administering this chapter. The licensure fee may vary depending upon the varying costs associated with administering the various regulatory requirements of this chapter as they relate to the nature and scope of the different licensure activities, including, but not limited to, the track and trace program required pursuant to Section 126, but shall not exceed the reasonable regulatory costs to the licensing authority.

(b) (1) Funds for the establishment and support of the regulatory activities pursuant to this chapter may be advanced as a General Fund or special fund loan, and shall be repaid by the initial proceeds from fees collected pursuant to this chapter or any rule or regulation adopted pursuant to this chapter, by January 1, 2022. Should the initial proceeds from fees not be sufficient to repay the loan, moneys from the Medical Cannabis Fines and Penalties Account shall be made available to the bureau, by appropriation of the Legislature, to repay the loan.

(2) Funds advanced pursuant to this subdivision shall be appropriated to the bureau, which shall distribute the moneys to the appropriate licensing authorities, as necessary to implement the provisions of this chapter.

149. (a) Except as otherwise provided, all moneys collected pursuant to this chapter as a result of fines or penalties imposed under this chapter shall be deposited directly into the Medical Marijuana Fines and Penalties Account, which is hereby established within the fund, and shall be available, upon appropriation by the Legislature to the bureau, for the purposes of funding the enforcement grant program pursuant to subdivision (b).

(b) (1) The bureau shall establish a grant program to allocate moneys from the Medical Cannabis Fines and Penalties Account to state and local entities for the following purposes:

(A) To assist with medical cannabis regulation and the enforcement of this chapter and other state and local laws applicable to cannabis activities.

(2) The costs of the grant program under this subdivision shall, upon appropriation by the Legislature, be paid for with moneys in the Medical Cannabis Fines and Penalties Account.

(3) The grant program established by this subdivision shall only be implemented after the loan specified in 146(b) is repaid.

Pursuant to that constitutional provision, the Legislature makes the following findings to demonstrate the interest protected by this limitation and the need for protecting that interest:
