

SISKIYOU COUNTY MEDICAL MARIJUANA CULTIVATION REGULATIONS

PROPERTY REQUIREMENTS

- Must have an **occupied, legally established residence**.
- Residence must be connected to a county-approved wastewater disposal system.
- Must have a legally established water source on the premises.
- Generators used for cultivation must be at least 100 feet from property lines and generate no more than 45 dB at nearest property line.

RESIDENCY REQUIREMENT

- Property used to cultivate cannabis **must be occupied by a resident of Siskiyou County** who is a qualified patient or primary caregiver.
- Proof of residency on the property where cannabis is cultivated may be satisfied using one of the following:
 - ✓ CA DMV issued driver's license; or
 - ✓ CA DMV issued photo identification card.
- If CA DMV issued driver's license or photo ID lacks a physical address, additional proof of residency may be satisfied using one of the following:
 - ✓ Utility bill bearing the name of the patient/primary caregiver and the address used for cultivation;
 - ✓ Residential lease or rental agreement bearing the name of the patient/primary caregiver and the address used for cultivation;
 - ✓ Property deed bearing the name of the patient/primary caregiver and the address used for cultivation; or
 - ✓ DMV registration bearing the name of the patient/primary caregiver and the address used for cultivation.

PLANT LIMITS

- Less than 1 acre: 6 mature or 12 immature plants
- 1 acre and greater, but less than 20 acres: 12 mature or 16 immature plants
- 20 acres and greater: 24 mature or 36 immature plants

** Plant limits are per parcel, regardless of the number of patients. Contiguous legal parcels under common ownership or control are treated as a single parcel.*

SETBACKS FROM PROPERTY LINES

- 3 or fewer plants: 20 feet
- 4-6 plants: 30 feet
- 7-9 plants: 40 feet
- 10-12 plants: 50 feet
- More than 12 plants: 150 feet

** Plants **must not be visible** from adjacent properties or public places. If not possible, they must be grown behind a solid, non-transparent fence at least six feet in height or cultivated indoors.*
